

# 12 Week Household Waste Audit

## – House Living

Around the world, 'Bin Systems' come in all shapes, sizes and colours. This table is for Households who **DO NOT SHARE** a communal **Waste Bin Collection** system.

To help you audit your household's waste, use this table to track your progress. Estimate and circle how full each coloured bin is, before your waste collection day.

After 12 weeks add up your total score.
